ABSTRACT
As the financial sector is growing from time to time in Ethiopia the level of their financial performance in the sector also is growing from time to time. Even if there are many privately owned banks in the country majority of the market share of the banking sector is dominated by governmentally owned commercial bank of Ethiopia. This study will try to analyze the financial performance of three of the privet banks that are operating in the country using the CAMEL approach in order to have the glimpse of image how the privet sector of the bank in the country is operating in the financial sector.

KEYWORDS: financial, commercial bank of Ethiopia, CAMEL approach.
