ABSTRACTS:

The proper utilization of university finance is a pre-requisite for good administration. Hence in order to know whether there is effective administration of expenditure is there or not. Accordingly, the study is conducted using secondary sources of information. The total five heads of expenditure have been identified such as Non-plan expenditure, Development expenditure, UGC Expenditure, Special Scheme and Debt head expenditure. The analysis of which is conducted using percentages, and average growth of expenditure for the study, to evaluate deficit/surplus management of university. Finally findings and suggestions are offered to improve the efficiency of University administration of finance.

KEYWORDS: administration, development.
