This book has been written by distinguished academicians and practitioner of bank management, Dr. Deepak Tandon and Dr. Neelam Tandon. Dr. Deepak Tandon has been a hands–on banker having stint with both public as well as private sector banks, presently teaching financial skills to management students at International Management Institute, New Delhi. This book combines the underlying principles of bank management with practical case studies to challenge the students.

This book will be useful for bankers who wish to acquire up-to-date knowledge about key challenge areas and processes to compete with their peer banks. This book will be equally useful for students of Management Business Administration (MBA) and Executive Management Business Administration (EMBA) to grow as finance professional and leaders in their respective areas.

To repeat, this book is a ‘must read’ for all practical bankers and finance students interested in mastering the working of commercial banks and designing suitable strategies for ever changing financial scenario.
